Exercise floor band

Tumble Track is a sprung strip for floor gymnastics, suitable for spaces that cannot accommodate a full square floor. The track is 2 m wide, and its length can be selected to meet the customer's requirements. Individual sections measure 200 × 125 cm.

Stabilisers along both long sides help reduce sections lifting and unwanted movement when landing on the edge. These sections therefore cannot be used to assemble a conventional 14 × 14 m gymnastics floor.

The stiffness of each section can be adjusted by adding or removing four springs included in the delivery, allowing a softer or firmer configuration.

To reduce movement of the track, we recommend anchoring it to a solid floor using a tensioning system. Tensioners are not included.
