Lightweight mats with leather corners

Lightweight mats are designed for sports activities that place greater demands on the mat. The cross-linked polyethylene core is suitable for rolls, landings and falls from low heights.

The cover is phthalate-free. The underside has an anti-slip finish that helps reduce movement of the mat on the floor. Carrying handles in the same colour as the cover make the mat easier to carry and handle.

The corners are reinforced with genuine leather to help protect the areas most exposed to abrasion, especially when the mat is moved across the floor.

Lightweight mats are available in five standard colours.
