

Lightweight mats with leather corners

The mat is made of Belgian synthetic leather (phthalate-free).

The corners of this kind of mats are covered by genuine leather. This protection is suitable for frequent moving of the mats which can caused the damage of the corners.

Antislip is always at the bottom. It prevents sliding of the mat on the smooth surface. Antislip is included in the price of the mat. At the customer's request we can add the handles for easier transfer. The core is

made of the high-quality cross-linked polyethylene. Therefore we would recommend the mats at schools and in the places with higher loads.
