Stretch landing area

The Stretch landing mat provides an above-ground alternative to a gymnastics pit for spaces where a standard landing pit cannot be installed. Depending on its size, it weighs approximately 60–90 kg.

The core has a layered construction designed to absorb landing impacts. The flexible stretch surface returns to its original shape after loading. The construction allows a choice between a softer and a firmer landing side; the change can be made at the customer's premises.

Dimensions can be customised to the customer's requirements.

Product number	Size	Weight	Color	Price	Price + VAT
G11-35020060-R	**350x200x60cm**	60kg		50,474.00 Kč	61,073.54 Kč
