Safety blocks for beam

This system of polyurethane and polyethylene blocks is designed so that the gymnast gains confidence during the practice of the exercise. This system also to eliminate the injury.
The system is produced from 5 parts:
1 x 214 x 200 x 14 cm
2 x 200 x 100 x 30 cm
2 x 200 x 100 x 60 cm
Velcro system is joining the mats together. You can also remove any parts and lower the beam….then it is suitable for beginners. The upper layer of this safety system is made up the combination of polyurethan and polyethy-len (both in increased hardness). This combination of the materials reduces the risk of accident and injury.
